

EDUCATION

- Identify a set of actions that may facilitate effective implementation of Advanced Practice Nursing (APN) in Primary Health Care in Brazil, for PAHO/WHO's consideration. (USP)
- At PAHO/WHO's request, develop a study to strengthen nursing education doctoral programs in Latin America and the Caribbean. (USP)
- Education in the Americas on Advanced Practice Nursing and nursing leadership in the Caribbean (MCM)
- Capacity Building in Higher Education. McMaster partnership with the University of the West Indies to develop a Report on the Status of Nurses in Midwives in the Caribbean. Graduate student practicum placements (MCM)
- Facilitated Nursing and Leadership Webinar Series in partnership with UWISON, and WHO (MCM)
- Strategies for Pandemic Nursing Workforce Planning in Central Local Health Integrated Networks. Two webinars, McMaster University. (MCM)
- Webinars & Presentations related to APN locally and globally (MCM)
- At PAHO/WHO's request, to support the development of and Advance Nurse Practitioner in PHC and transitional care training plan:
 - Set up a group of international experts around ANP and PHC.
 - Conduct a literature review around ANP and PHC and report the results to PAHO.
 - Develop a training proposal to be used regionally used and based in the PAHO guidelines.
 - Submit the training plan draft for PAHO review and comments. (PUC)
- Facilitators' Guide for Antenatal Care Education finished and published (2018). (Manual de talleres prenatales en la Atención Primaria de Salud: Una herramienta para matronas y matrones. Programa de Salud de la Mujer-Chile Crece Contigo). MINSAL Chile, 2018. Supported by CC at the University of Michigan, Emory University (Atlanta), the institute of Centering (USA) (U de Chile)
- Maternal Health Training Project (MHTP). This project is part of the larger Integrated Health Systems in Latin America and the Caribbean (IHSLAC) project being implemented with PAHO/WHO in collaboration with Global Funds Canada (GAC). This is a four-year project, which began in January 2016 and concluding in December 2019, the desired output is to increase the number of healthcare workers trained competently in maternal and child health in 8 LA countries. The CC has been participating from the beginning. Since February- April, our WHOCC staff has been mentoring (ToT) trainers of the virtual course for health professionals. During March, 2019 a specific ToT was developed in Bolivia. (U de Chile)
- Training of Trainers in Competency- Based Education (CBE), and Training of Trainers in Evaluation of Competency- Based Education and clinical simulation. Implementation of Training Workshops on Clinical Simulation and Competency-based Evaluation Strategies Instructor's Manual. First Workshop recently implemented in T&T with the CRMA supported by PAHO. (U de Chile)
- El Salvador: Technical consultation for supporting the implementation of a Competence Based Education (CBE) curriculum, Program of Licenciatura en Salud Materno Infantil, Universidad de El Salvador, started in 2015. During March, 2019 both institutions start writing and documenting the whole process of CBE. Planned to be implemented in 2020. (U de Chile)
- * Finally, the translation of the 3 books Midwifery Core Competencies has been published. Access through the following links
 - 1) Midwifery educator core competencies (2013) <https://apps.who.int/iris/bitstream/handle/10665/325769/9789241506458-spa.pdf>
 - 2) Midwifery educator core competencies: building capacities of midwifery educators(2014) <https://apps.who.int/iris/bitstream/handle/10665/325770/9789241508223-spa.pdf>
 - 3) Midwifery educator core competencies: Adaptation tool (2014) <https://apps.who.int/iris/bitstream/handle/10665/325775/9789241508230-spa.pdf> (U de Chile)
- (#1) Provide technical support in order to assist PAHO/WHO's work towards the development of an interprofessional framework to respond to violence against women and children". (UWI-J)
- (#2) Conduct training for Evidence Based Nursing Practice in the Caribbean. (UWI-J)
- Activity 4: As requested by PAHO/WHO, provide support to PAHO/WHO in developing training for health professionals on leadership, health policy and quality management using an interprofessional education approach. (UWI-T)
- The School has also been involved in a number of initiatives contingent on the COVID-19 pandemic. These include
 - A. The development and implementation of an 'Introduction to Critical care Nursing' programme.
 - B. UWISON collaborated with Columbia University to host an international Webinar with the theme 'Innovations in Online Clinical Nursing Education – in the context of COVID-19' on July 31, 2020. A total of 178 persons registered but the attendance on the day of the Webinar was 128 nursing personnel.
 - C. UWISON collaborated with Columbia University, University of Illinois (in Columbia), Mc Master university, Dalhousie university (PAHO/WHOCCs) and PAHO/WHO to host a Webinar series on leadership titled 'over 4 Fridays in June 2021. (UWI-T)
 - D. UWISON collaborated with Columbia University (PAHO/WHOCCs) to host a Webinar on leadership titled 'The role of the nurse in global leadership and health equity' December 9,2021. (UWI-T)
- Create an asynchronous, on-demand, 60-minute training: "Integrating Service-Learning in Nursing Education: Train the Trainer" (UAB)
- Create an asynchronous, on-demand, 60-minute training: "Building Universal Health Competencies in Nursing Education: Train the Trainer" (UAB)
- Create an asynchronous, on-demand, 4-module course: "Simulation and Technology in Nursing Education" (UAB)
- Offer a training program on Nursing Education in different countries of the Caribbean region (MIAMI)
- Evaluate and update the content of the Nursing Leadership: Empowering Nurses in Latin America and the Caribbean online course (MIAMI)
- Develop, implement and evaluate a Health Personal Safety Training Course in English and Spanish (MIAMI)
- Support mentorship to strengthen nursing leadership in the Caribbean countries. (MIAMI)
- Develop and implement an online course and three webinars to strengthen nursing education and advanced educational technology in Latin America and the Caribbean (MIAMI)
- Develop evidence based inter-professional workshop(s) on health promotion, prevention and management of non-communicable diseases (NCDs) in the Caribbean (working with UWI St. Augustine, Trinidad & Tobago). (UIC)

EDUCATION

- At PAHO/WHO's request, promotion of the translation and dissemination of knowledge using online/eLearning tools to advance inclusive and equitable nursing and midwifery education post-Covid, via 1 published manuscript. (JHU)
- Development of workshop on health and safety protections in Georgetown, Guyana, Gambia, Uganda (UMD-SOM CC)
- Decolonizing global health in collaboration with the University of Gambia (UMD)
- [WHO CC- Occupational health](#)- COVID 19 prevention and response in healthcare workforce. Developed tools and resources. (UMD)
- Support PAHO/WHO in the development of Web based train the trainers program for simulation based clinical training for Nurses in the Northeast of Brazil (UM)
- By PAHO/WHO request provide capacity building in quality nursing training in the Caribbean (UM)

Current:

- Support PAHO/WHO to map curriculum for APN in Brazil for possible introduction and expansion to other LAC Member States. (COL)
- Support PAHO/WHO to advance the role of APN and develop a generic APN implementation framework that incorporates APN role in primary health care in LAC. (COL)
- Support PAHO/WHO to expand knowledge of e-learning/informatics in nursing and midwifery by identifying e-learning resources, current gaps and compiling these resources for use in LAC. (COL)

Completed:

- Curriculum mapping for advanced practice nursing (APN) with Brazil (COL)

Ongoing:

- The preliminary results of the Brazilian APN Competencies will be presented during the Miami meeting in November 2022. This will provide the foundation for the APN Curriculum. (COL)
- A generic prototype APN curriculum will be shared with LAC members through PAHO/WHO (which can be referred when considering possible implementation in LAC Member States). (COL)

- TOR 1. To support PAHO/WHO in building inter-professional workforce capacity to strengthen health system-based integrated care to promote healthy aging and for older persons with chronic disease to maintain functional capacity (self-care). (NYU)
- Assess learning needs of interprofessional workforce in collaborating institutions and agencies to inform training and education programs. (NYU)

- Develop training modules in quality improvement and simulation guided by the Quality and Safety Education in Nursing (QSEN) six competencies in English and Spanish. (UNC)
- Develop a training proposal in Nursing, Leadership and Administration (UNC)
- Conduct research focused on quality healthcare including research capacity and training in the Caribbean region (UNC)
- Conduct evaluations and guidance on implementation of undergraduate and advanced practice nursing program. (UNC)
- Develop a nursing workforce report about nursing and midwifery capacity in Ecuador. (UNC)

- Develop technical papers related to topics of adolescent's health to inform capacity building activities for registered nurses in Colombia, Peru, and Ecuador. (PENN)
- Support capacity building activities to advance doctoral education in nursing in Latin America and the Caribbean. (PENN)
- Conduct a survey on the use of technology to prepare nurses in Schools of Nursing in selected English- speaking Caribbean countries. (PENN)
- Support PAHO/WHO's capacity building activities on women's health in the Dominican Republic, Mexico, Jamaica, and Trinidad and Tobago. (PENN)

RESEARCH

- Support PAHO/WHO to expand knowledge of e-learning/informatics in nursing and midwifery by identifying e-learning resources, current gaps and compiling these resources for use in LAC. (COL)

Completed:

- Scoping review of existing clinical nursing and midwifery research conducted in past ten years in LAC (COL).
- Conducted a survey with leaders of nursing and midwifery to evaluate the impact of the priorities for nursing and midwifery research identified by PAHO. These priorities address regional health needs and aim to facilitate research collaborations and mentorship between clinicians and educators. (Hughes, T.L., George, M., Shah, R., Moreno Dias, B., Dohrn, J., & Cassiani, S.H. (2022). Nursing engagement in research priorities focused on health systems and services in Latin America Countries. *Human Resources for Health*. <https://doi.org/10.1186/s12960-022-00746-9>) (COL)

Ongoing:

- Update: We are working on Information session at the upcoming November 2022 WHO/PAHO CC meeting in Miami with PANMCC members to gauge their interest and obtain their feedback on the structure and logistics of conducting a Manuscript Writing program. Syllabus and content model will be disseminated by mid-December 2022. (COL)

- Development of evaluation instrument for educational programs on EBP for healthy aging and care of the older person with chronic disease. (NYU)

- Implementation of evaluation re educational programs regarding implementation of the EBPs. (NYU)

- N/A (UNC)

- Assess potential to evaluate the nursing work environment in English-speaking Caribbean countries (PENN)

- Provide an analysis of the situation of nursing journals in LAC and Caribbean Member States (PENN)
